

Nordic seminar: H2020 and Personalized Medicine

Are you looking for academic partners to answer the future calls of challenge 1 of the H2020 program "Health, demographic change and well-being"? Do you also want to include companies in your consortium?

Come meet your future partner on September 11th in Copenhagen!

The French Institutes of the Nordic countries (Sweden, Denmark and Norway) organize a seminar for specialists in personalized medicine and biomarkers. You can also meet individually with the H2020 national contact points for Denmark, Sweden and France. Other presentations are also planned on the programs [Eureka](#) and [Eurostars](#), [IMI](#), [ICPerMed](#) ...

Why this seminar?

The aim of this seminar is to encourage meetings between French and Nordic actors (public, private ...) in order to apply jointly to the calls for projects of the first societal challenge of H2020.

Who is this seminar for?

Universities, research institutions, hospitals, large and small companies, start-ups and patient associations from France and the Nordic countries are encouraged to participate.

The event is open to researchers and all professionals specialized in the fields of medicine, computer science, humanities and social sciences (law, health economics, sociology ...).

Participants from other countries are also welcome, including members of the EU 13.

Register quickly, the number of places is limited!
