

Swedish International Students and Alumni presents masters degrees within EU

Find out more about international relations, business, science, engineering, innovation masters degrees...!

On Thursday, March 15th, [Campus France Sweden](#) participates in the event organized by SISA (Swedish International Students & Alumni) at Europahuset in Stockholm. This event gives an opportunity to learn more about studies at the master's level, in English and within the European Union, particularly in France, Germany and Spain.

Campus France Sweden will answer all your questions concerning France and will direct you towards the master programs or the Erasmus exchanges that you are looking for.

Two institutions will also be present to talk about their master degrees:

- [Grenoble INP, engineering school](#) (energy, environment, digital, nanotechnologies, ...) will present its training in English and the reception of foreign students in its curriculum and exchange Erasmus.
- [Handelshögskolan](#) offers two double degrees with Sciences Po Paris, in English (Double Degree master program + Double degree master program specialized in Economics, Business and Management).

The event will mainly be held in English.
